

ADVANCED CONTAINER BREACH MONITORING

AT A GLANCE

EyeSeal device installation

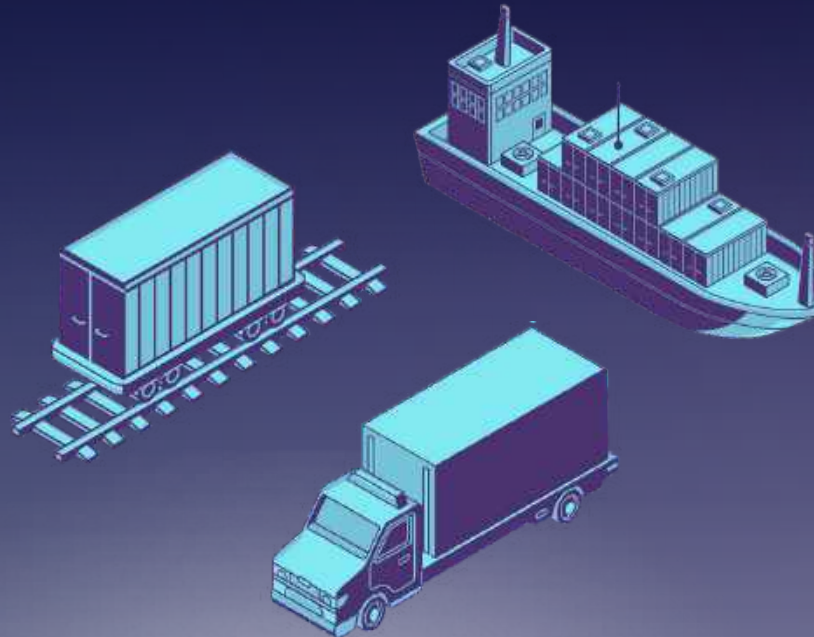

The EyeSeal device is installed inside the shipping container and activated

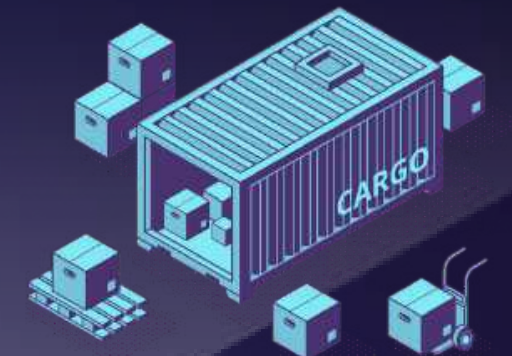

EyeSeal regular updates and alerts are encrypted and transmitted via 3G GSM networks

Constant monitoring during entire voyage

Upon arrival at final destination EyeSeal generates a full detailed forensic report of the entire voyage.

Cargo arrives at destination

DIRECT DATA

Location tracking

Breach and door monitoring

Advanced anti-hacking and anti-jamming protection

Light detection

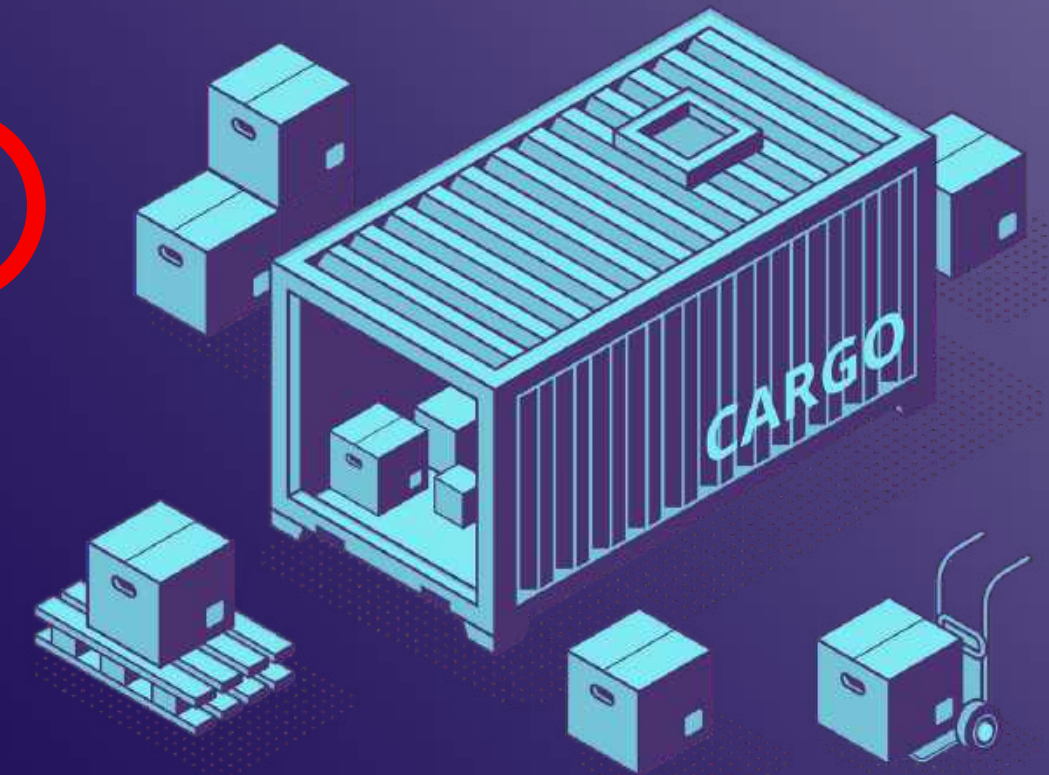

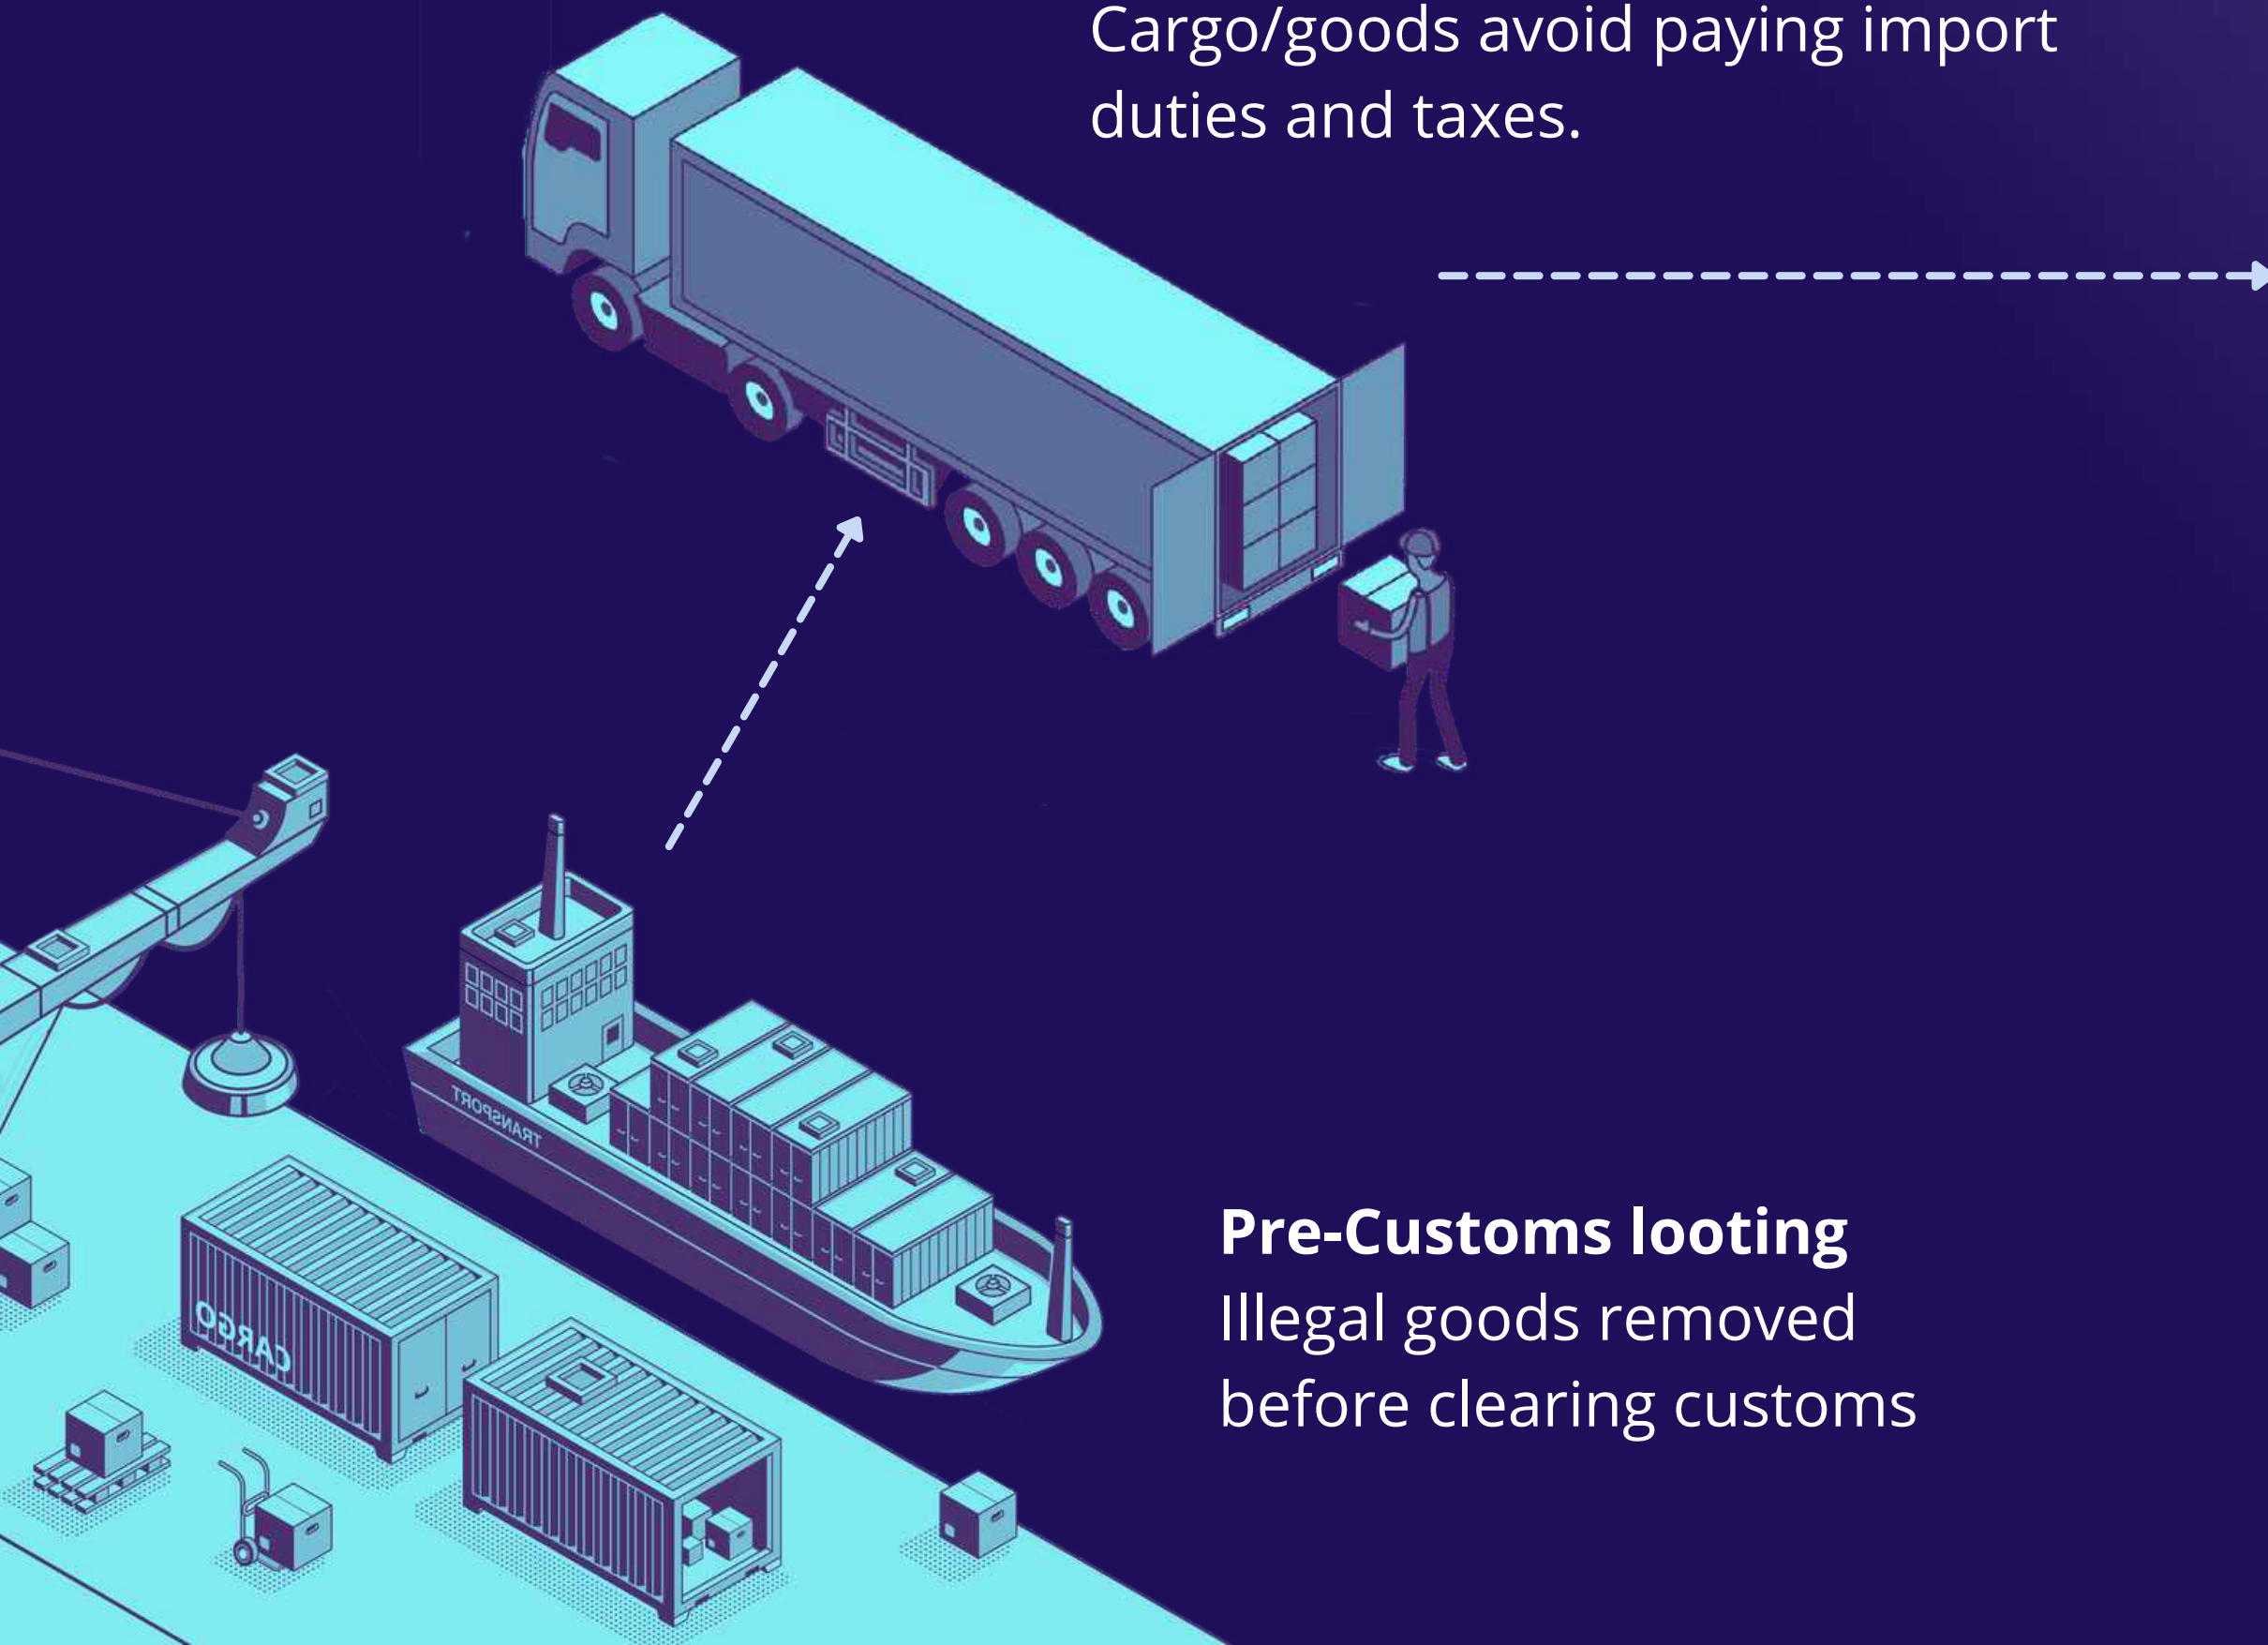

Temperature monitoring

Humidity monitoring

Transit container is breached
Cargo/goods avoid paying import duties and taxes.

Cargo is missing at delivery

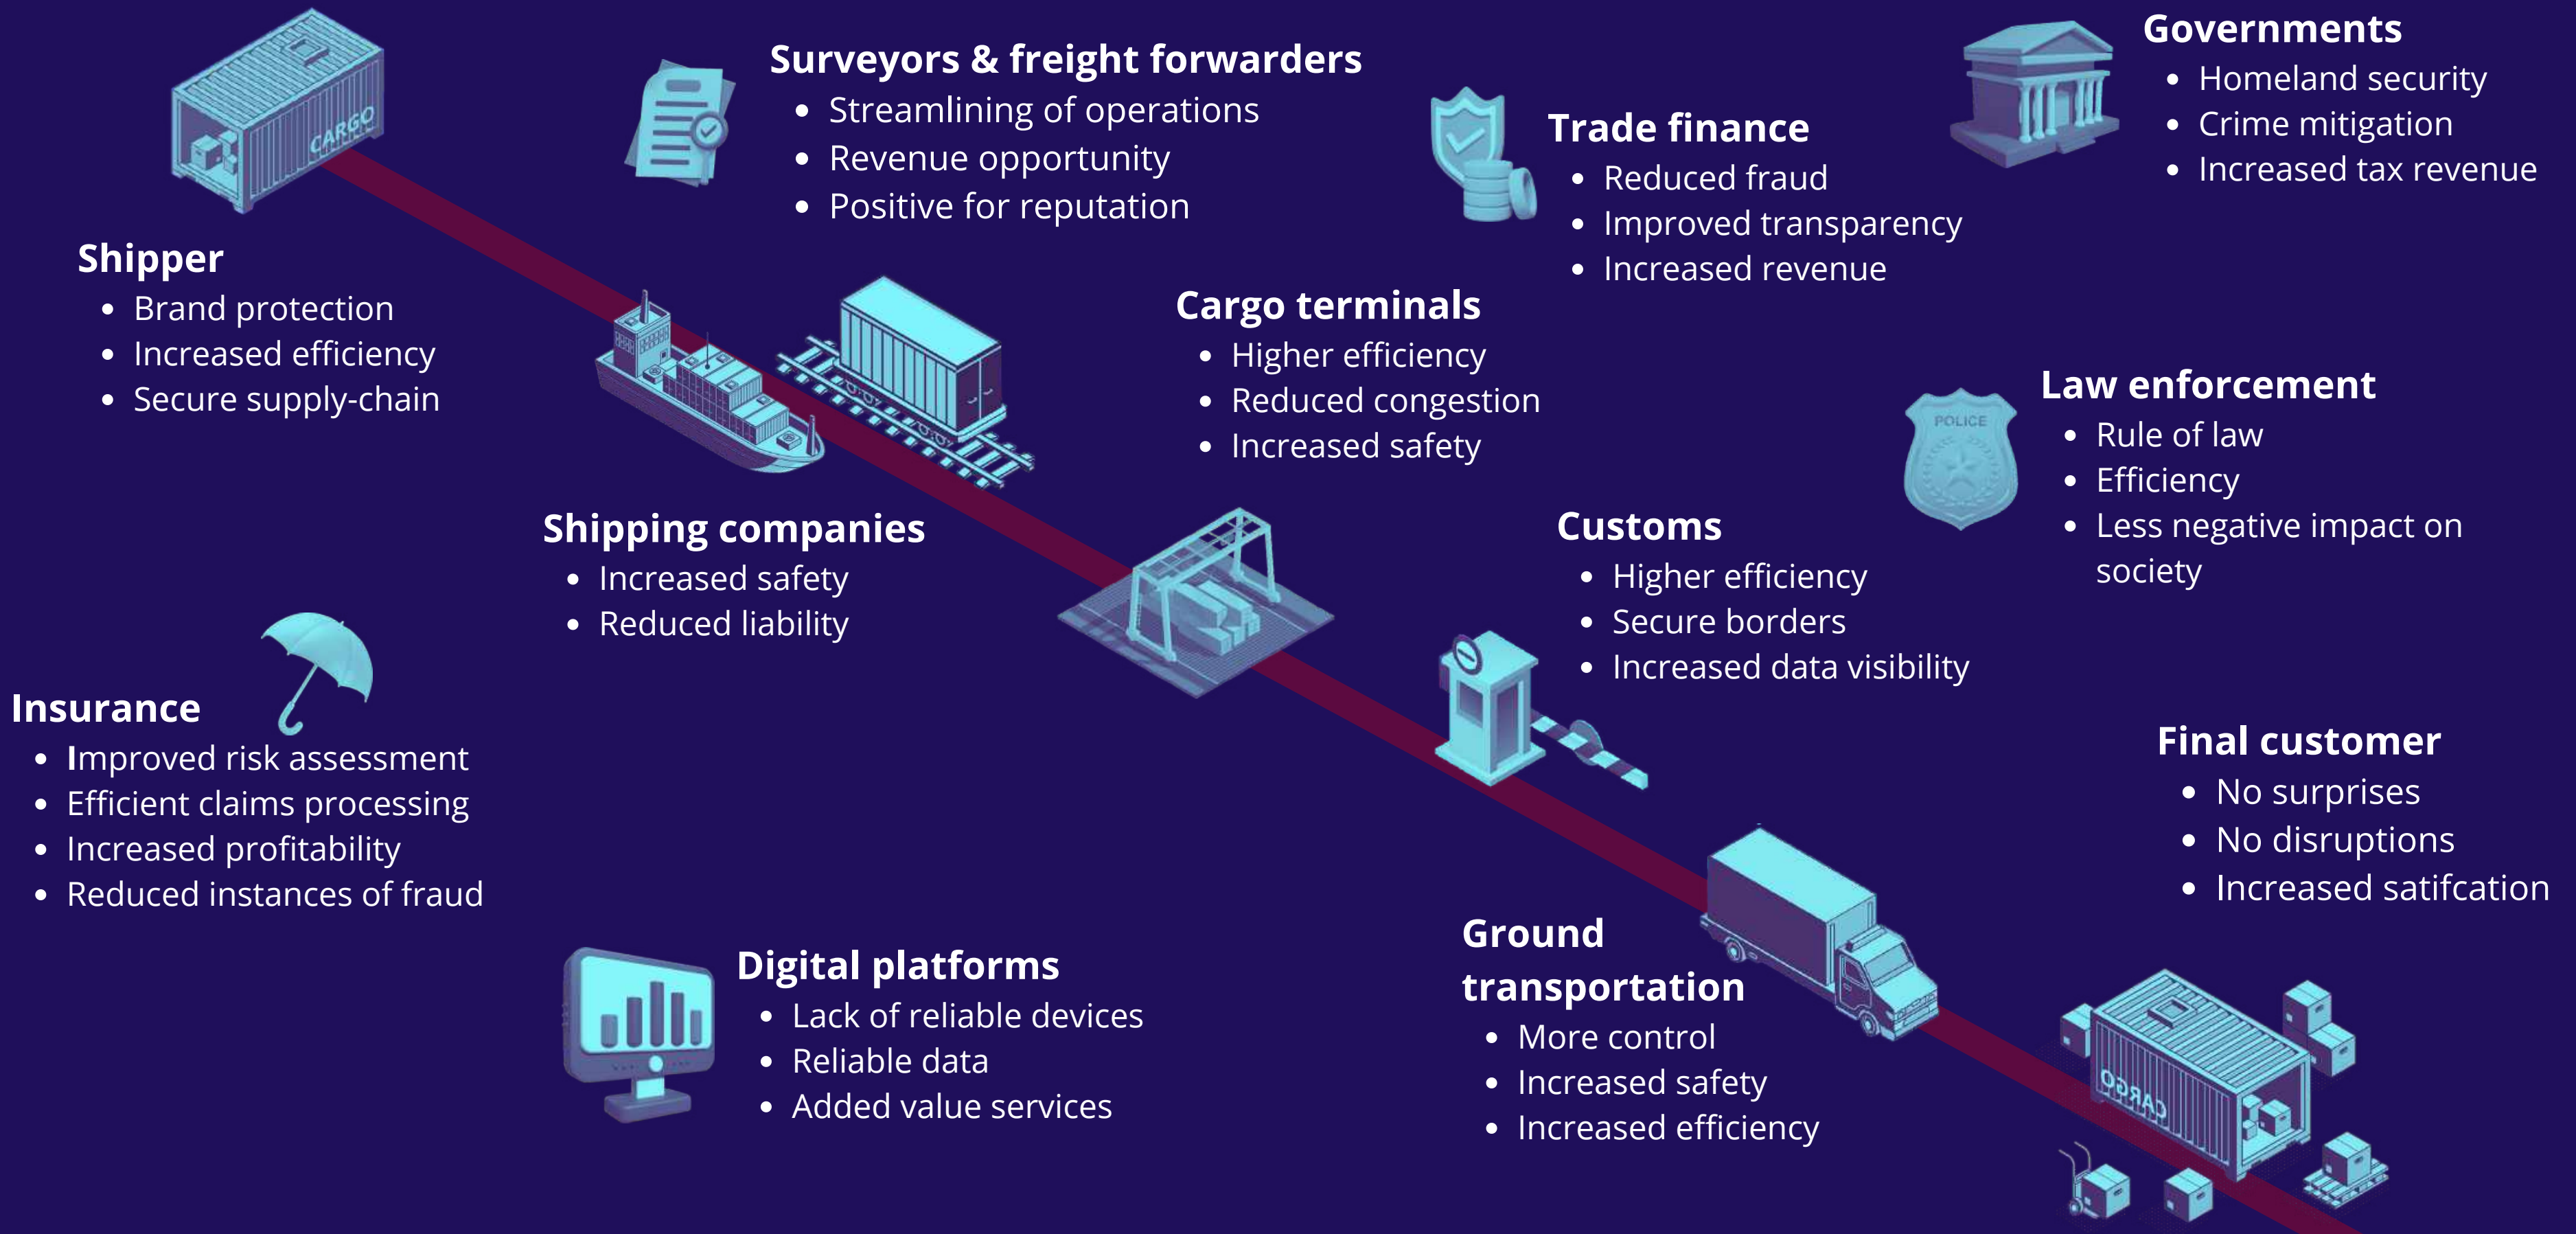

Cargo infringements are a growing global issue

Pre-Customs looting
Illegal goods removed before clearing customs

What makes our solution unique is that it is installed on the inside of a shipping container.

**This makes our device
100% tamper-proof!**

The solution for the entire value chain

NEGATIVE CONSEQUENCES OF A LACK OF SECURITY FOR CARGO TRANSIT

- Loss of tax revenue for the government
- A negative impact on domestic and international trade
- Increase of unfair competition inside the EU
- Slowdown in economic development
- Decline in confidence or business partners exporting to the EU
- Risks to state and community security
- Increased criminal activity and corruption
- Damage to the international reputation of European ports

- Device installed **inside** the container at point of origin
- Unique patented door sensors
- Operates on a global communications network service
- Generates regular reports and immediate break-in alerts with timestamp and location across the entire logistics value chain

THE SOLUTION

A PRO-ACTIVE SYSTEM TO MONITOR THE RISK OF COVERT INSERTION OR EXTRACTION OF GOODS AFTER THE CONTAINER IS SEALED

Time and location of any breach is detected by device

Servers operate on highly secure architecture using private APNs

Law enforcement is tipped off and takes action

Customs receive breach alert & data

Certified evidence of incident

EyeSeal - Defense in Depth Cyber Security Capable

Device Level

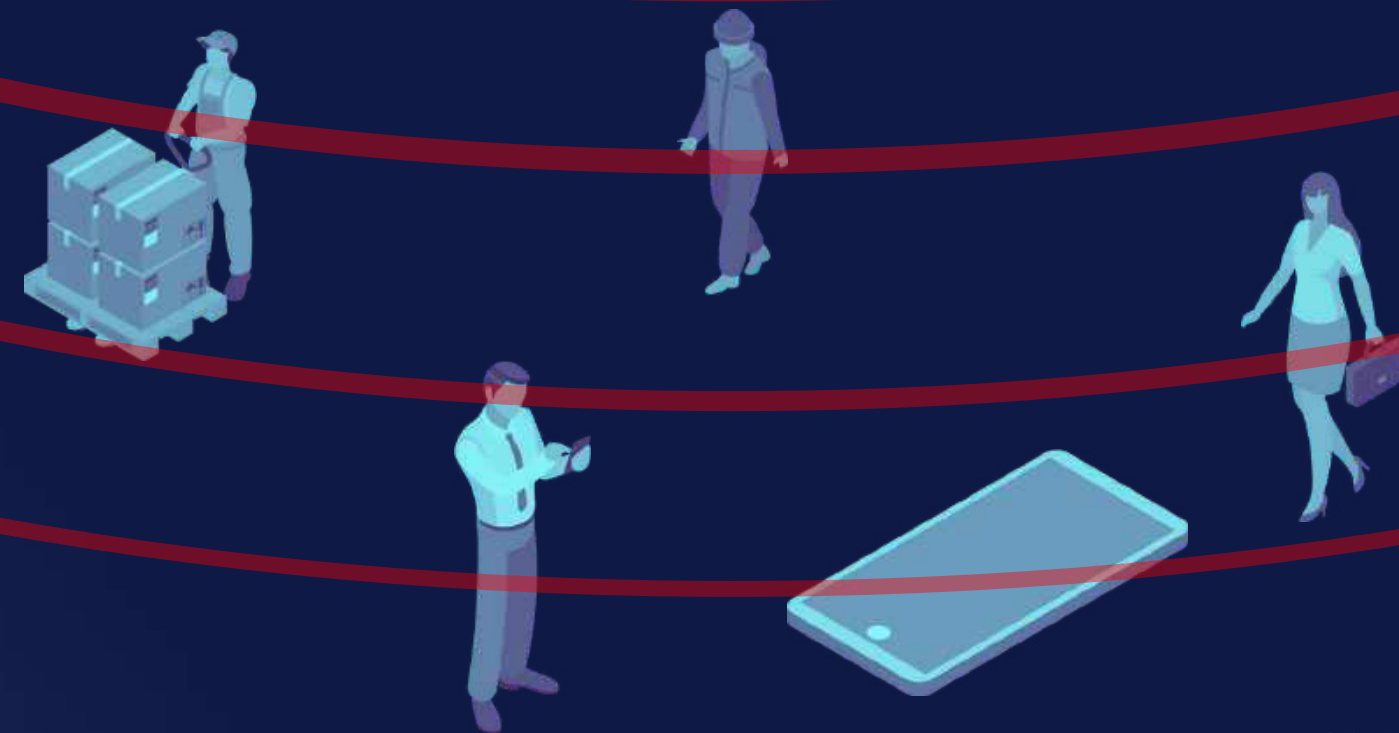

- Endpoint Security Features
- Jamming Detection
- Jamming Notification
- Jamming Remediation

Network Level

- Secure Network Connection to Endpoint
- Network Monitoring for Malicious activities

Server Level

- Advanced Monitoring and Notification

SHIPPING CONTAINER MONITORING PROCESS

Device installed inside the container at the point of loading

Monitoring from the point of loading to the point of final delivery

Any form of container break-in is recorded at all times

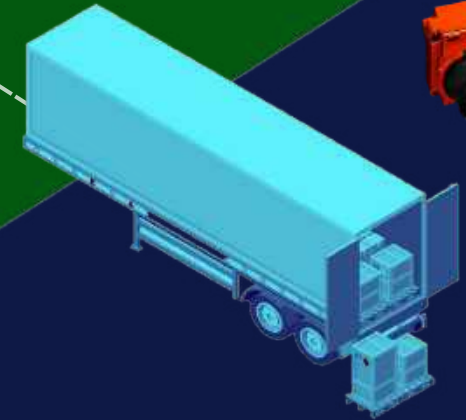

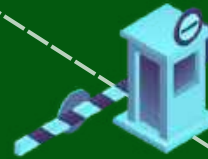

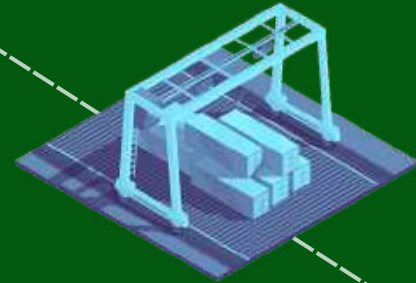

Real-time reports via gsm network (stored off-grid)

EyeSeal notifies customs and law enforcement of break-ins

EyeSeal device installed inside the container at point of origin possibly in collaboration with accredited survey company.

DIGITALLY ENABLED TRUSTED CARGO AND PORT EFFICIENCY

- Trusted fastlane access with EyeSeal device installed at origin of voyage.
- Economical advantage of skipping days or even weeks of port congestion is significant.

Proof of concept

Gateway2 Britain project

In 2023, EyeSeal participated in a pilot project to create a cargo shipment fast lane between Belgium and the UK.

EyeSeal was selected as the most advanced solution among more than 20 participants.

Subject: Declaration concerning the cooperation between Deloitte and EyeSeal on the Gateway²Britain project

Dear Sir, Dear Madam,

Via this way we would like to declare that Deloitte has successfully cooperated with EyeSeal on the Gateway²Britain project, for which EyeSeal was selected as one of the technological solution providers for a number of pilot shipments involving the use and testing of track and trace technology.

Throughout our collaboration, we have experienced EyeSeal as a knowledgeable, trustworthy and punctual party in the preparation and execution of a number of closely monitored pilot shipments from the EU to the UK, during which its technology was successfully tested.

Please do not hesitate to reach out in case of any inquiries regarding this statement.

Your sincerely,

Daan De Vlieger

DETAILED TRIP REPORT

Detailed automated legal reports of the entire trip can be downloaded at any time.

- Protects the interests of importers and exporters
- Trademark and reputation protection
- Added value to cargo investigation efforts
- Hard evidence for law enforcement and insurance

THANK YOU
